All Color-Logic licenses are compatible with both Silver ink/toner and White ink/toner based printing devices, the Color-Logic System™ is the worlds first color communication system that takes into account the printing device, inks, press profile and coatings unique to the printer and provides designers, brands, printers and convertors with an accurate color communication and print embellishment system to work from.

Choosing the right license

A Standard Printer License is ideal for a print shop or convertor that only needs to print and manufacture supplied files designed using Color-Logic. A Standard license also comes with one Design Suite & FX-Viewer, which enables the printer to convert designs in-house on behalf of their clients/designers. Additional single seat installs of the Design Suites & FX-Viewers or the Pro Design Suite & FX-Viewers are available for purchase, see add-ons page of this document for more details.

The Premium, Premium Plus and Premium Plus Pro license modules are designed for print shops that work at the brand or design level – each of the premium licenses comes with additional Design Suite & FX-Viewer CDs (Single Seat installs) that may be sold to designers. As an example, if a printer were to purchase the Premium Plus license, they would get ten copies of the Design Suite & FX-Viewer, which may be resold to designers for $799 per suite – this means that the printer can recoup $7999 back from the initial investment should all ten Design Suites be sold.

Terms & Conditions

All prices are in $US Dollars.
Prices are subject to change without notice. Shipping is FOB/ Ex-Works, Color-Logic, USA.
Pricing does not include Duties or Taxes that are the responsibility of the Client (buyer)

If you have purchased one of our Premium License packages, Color-Logic will provide each of your external design clients who register using one of the Design Suite Vouchers, with their own unique login details to S.M.A.R.T Centre where they will have access to software, training manuals, video guides and marketing files. Your clients will be supported by Color-Logic for the duration of your enrollment in our S.M.A.R.T Centre Program – All licenses come with 2 years enrollment and may be renewed on a yearly basis thereafter.

If you wish to purchase additional Color-Logic products after your license purchase, you must be enrolled our S.M.A.R.T Centre Program.
